MUST, Minghsin University of Science and Technology
Advantages of MUST:

- Recognized as the 2nd best private technical university in Taiwan with more than 45 years of history.
- More than 27 disciplines to choose from, including engineering, business, service management, and social sciences.
- Well qualified and highly experienced full-time faculty.
- State-of-the-art campus with modern teaching facilities such as wireless high-speed internet, hi-tech laboratories, library, computer center, professional classrooms, internship restaurant, etc.
- Modern sport facilities with standard equipment such as indoor swimming pools, 42-lane bowling alley, football field, tennis courts, basketball, baseball, table tennis, fitness center, and many others.
- Picturesque landscape of 36 hectares at an excellent location: 3-10 minutes to Industrial Parks, 30 minutes to the International Airport, and 1 hour to Taipei 101.
- Constitutional freedom of speech with no censorship or constraint on all forms of communication or research.
- Strong academic collaborations with globally reputed companies offering diversified internship opportunities.
- Chinese Language Center for comprehensive training of the official language.
- Support services such as working permit, transport, fully furnished dormitory, etc.
- Affordable fees with flexible payment structure.
- Scholarships under various categories.
In the year 1965, a group of important scholars decided to devote what they had at hand respectively and made it into a name brand school to prepare appropriate manpower during industrialization of Taiwan in the 70s. In July of that year the blueprint of the school took its form, and in October the Board of Directors was established. Dr. Lee Hong-Chao was appointed the first President of Minghsin Institute. On 1966 March the 1st, the institute took its launch only with three departments respectively: Mechanical Engineering, Civil Engineering, and Industrial Management. Same year August, Electrical Engineering was added. In 1967, Chemical Engineering took its place. In October of 1970, 2-year Mechanical and Electronic Engineering junior college programs were installed. In 1989, International Trade and Business Administration Departments were on the list. In the same year, the school changed its official name into “Minghsin Institute of Technology & Commerce”. In August of 1992, Management of Information System Department was set up.

In July of 1997, Ministry of Education passed the vote and Minghsin became “Institute of Technology”, appending 2-year & 5-year junior college programs. Afterwards, within a span of four years, Hotel Management, Children Education and Development, Leisure Industrial Management, and Gerontology Departments were all fixed into the panorama. With which, Minghsin became the first institute ever in Taiwan to set up Service Industry Studies in universities. In 2002 August, it officially became Minghsin University of Science and Technology (MUST), having Industry, Management, Service Study, Humanities and Social Sciences Groups - 9 graduate programs and 21 departments. Number of students in the same year reached its peak at 15,000 historically. Alumna and alumus were over 80,000 all over the world and several were prominent industry entrepreneurs already.

MUST is located in a picturesque town of Xinfeng in Hsinchu County, enjoying her 36 hectares of beautiful campus. Today there are approximately 14,200 students and currently more than 170 international students from Vietnam, Korea, Malaysia, Indonesia, France, China, Thailand, Philippines, etc. With the campus being neighboring the Hsinchu Science Park, the Industrial Park, and many other essential industrial parks in Taiwan, MUST is one of the best schools for students to learn professional knowledge and state-of-the-art technologies. The beautiful campus is excellent for students to cultivate professional skills as well as enjoying the learning process. Now-a-days, MUST has become a modern and sophisticated university; “MUST enjoy learning!” has become a slogan that precisely describes the campus life of our students.
Key Statistics

- Students: 14,200
- Faculty with PhD: 280
- National/International Championships achieved in the past 10 years: 142
- Laboratories: 113
- Swimming Pools: 3
- Campus Hectares: 36
- Alumni: 80,000
- Library collections: 310,000

Facilities and Services

★ Library

MUST library spans over 6,300 square meters. It is a four-story building with a basement. There are a new book display section, a reference book section, a database search section, a study room, a gallery & exhibition hall, a multimedia center, and so on. The library’s current collection contains more than 200,000 volumes in Chinese literature and 60,000 volumes in foreign language literature. In addition, there are more than 50,000 digital books, more than 600 types of periodicals ranging from professional journals to leisure magazines, and about 10,000 electronic journals.

- Opening Days: Monday Sunday (closed on National Holidays)
- Opening Hours: Mon.- Fri. 8:00-17:00, Sat. 9:00-18:30, Sun. 9:00-17:00

★ Computer Center

The MUST Computer Center has 3 subordinate branches, which are Application Development, Network Service, and Education Support respectively. The main building is a graceful 4-story construction, accommodating 1 server room, 8 administration offices, 1 maintenance station, 2 video conference rooms, and 6 net classrooms that are opened to all students. Besides, there are 1 electronic classroom, and 1 hardware training and maintenance room.

- Opening Days: Monday Friday (closed on National Holidays)
- Opening Hours: 8:10-22:00 (closed every Mon. 17:00-18:00 for weekly maintenance)
★ Wireless Infrastructure

MUST campus provides wireless internet service, which covers most of the administrative buildings, class rooms, laboratories, the library, and even the sport fields. Students only need to enter the Username and the Password on the front page of the web browser in order to start connection.

★ Laboratories

Totally, there are around 110 laboratories and more than 90 specialized classrooms in the campus.

* College of Engineering: 99 laboratories and 20 specialized classrooms, e.g. Precision Measuring Equipment Lab., Optoelectronic Thin Film Technology Lab., etc.

* College of Management: 14 laboratories and 32 specialized classrooms, e.g. Quality Control Classroom, Virtual Trading Room, etc.

* College of Service Industries: 30 specialized classrooms, e.g. Training Restaurant - @House, Nursing Simulation Room, etc.

* College of Humanities and Social Sciences: 9 specialized classrooms, e.g. Multimedia Classroom, Sports Massage & Injury Prevention Room, etc.

★ Language Center

The Chinese Language Center

The center was established to provide Chinese language training courses for international students, and to cultivate qualified teachers for Chinese language training. The center emphasizes technological and professional education and provides audio-visual classrooms and reading rooms for the students. The courses are designed to satisfy various needs of foreign students.

* The Language Teaching Center

The Language Teaching Center comprises two sections. The Teachers of English Section is mainly in charge of organizing and teaching freshman and sophomore English as well as other school-wide mandatory English courses, while the Teachers of Foreign Language Section offers courses for French, German, Spanish, and Japanese.
★ Student Dormitory

MUST has 6 on-campus student dormitories, providing accommodation for up to 2,100 students. Most of them are quadruples; some are double rooms. Each dormitory has a studying room, leisure lounge, LCD TV, washing machines, and internet access. Since MUST is a non-smoking and alcohol-free campus, all rooms are smoking-and-alcohol-prohibited. International students are required to reside in the on-campus dormitory for the first year of study in MUST. Information regarding application and fees can be found in the Section of Fee Structure.

★ Dining

There are 4 major restaurants on the campus: the Zong-Shan Building B1 Restaurant, the Female Dormitory Restaurant, the Male Dormitory Restaurant, and the @House Restaurant. The business hour is 07:30-20:00, Mon.-Fri. during the semester. Various styles of meals are provided for breakfast, lunch, and dinner, such as set meal, fried rice, dumpling, snacks, noodles, beverage, fruit, dessert, etc.

★ Convenient Store

There are many brand-name convenience stores in Taiwan, such as 7-11, FamilyMart, and Hi-life; there are 3 convenience stores inside the MUST campus located near the dormitories and the restaurants. These convenience stores are just like the small versions of supermarkets. Students can find almost everything that is needed for daily uses, and the stores offer a lot of additional services such as, photo-copy, fax, ATM, postal service, payment services (e.g. tuition, phone bill, and forfeit etc.), and ticketing (e.g. ticket for movie, concert, amusement park, museum, transportation, etc.)

★ Transportation

There are plenty of public transportation services near the MUST campus, providing convenient, fast, safe, and low-cost transportation for MUST students. The Xinfeng Railway Station is within 15 minutes of walking distance. You can take the train to Taipei city or many other cities and towns. The Taiwan High Speed Rail Station can be reached by car in 15 minutes, which is the fastest ground transportation that takes you to southern Taiwan in less than 90 minutes. And there are many lines of city bus taking you around town; you can find bus stops right at the main entrance of the campus. Shuttle service to the International Airport is also available upon request.
Insurance

By law, all international students are required to participate in the following insurance programs, by which proper medical services will be provided during study in Taiwan:

1. New International Students’ Medical Insurance (NISMI)
2. National Health Insurance (NHI)

In cases of illness, injury, or childbirth, the student will receive medical services including medication and outpatient/inpatient services from NHI contracted healthcare providers. The student then only pays required co-payment for each doctor visit.

Student Visa

It is mandatory for all international students to have a valid R.O.C. student visa. Upon receiving the Admission Letter issued by MUST, the student must bring the letter to a Taipei Economic and Cultural Office in his/her own country to apply for a student visa. Note that foreign passport holders who enter Taiwan (R.O.C) on visa-exemption or landing visas are not allowed to study in Taiwan: if the student visa is not granted by the Government of R.O.C., enrollment in MUST is not possible. Contact the Office of International Affairs of MUST for inquiries regarding the student visa.

Working Permit

International students who have been with MUST for at least two semesters and acquired good academic standings can apply for working permit to work outside the campus, while working on campus requires no permit. The legal limit on working hours is 16 hours per week during the semester, and no limit during the summer and winter breaks. Student can consult the Section of International Student Service for application of the working permit.

Sports Complex

MUST is well-known for her state-of-the-art sport facilities provided for all students. The outdoor Sports Complex covers a standard track and field stadium, a baseball field, a softball field, 4 volleyball courts, 8 basketball courts, 2 beach volleyball courts, and 4 tennis courts, etc.

Student Clubs

There are more than 65 student clubs in MUST divided into five categories including the Student Union, the service clubs, the entertaining clubs, the art clubs, and the physical practice clubs. In order to encourage extracurricular activities, the Section of Extracurricular Activities regularly offers assistance in finance and facility to the student clubs. Most of the student clubs enjoy their own club offices in the Zong-Shan Building with a total area greater than 3,800 square meters. The C.K.S. Hall equipped with state-of-the-art light and sound systems is often the host of these student events.
Sports Halls:
There are multiple sports halls in the MUST campus to accommodate in-door sports. The MUST Gymnasium accommodates 8 badminton fields, 1 basketball court, and 1 volleyball court. The Fung-Kong Recreation Center houses 3 indoor swimming pools and a 42-lane bowling alley, compliant with international standards. There are other sports halls providing billiards room, combat room, table tennis room, aerobics room, and dance studio, etc.

Art Exhibition
The MUST Art Center supports and promotes the arts and culture-related activities on campus in order to cultivate in students a mind to appreciate the beauty of arts. The Art Center organizes exhibitions, performances, and other cultural activities, such as lectures on arts, and hosts related workshops, with the hope that these activities may further the humanistic attainments of the students and teachers as well.

Concert and Performing Art
The MUST Gymnasium and the C.K.S. Hall regularly schedule numerous concerts and activities of performing arts. The performers can be the MUST students or distinguished guests. Ranging from classical music concert to rock & roll dancing party, a wide variety of performance activities not only enrich the campus life but also provide great opportunities for student interactions.

Student Contest
MUST students are encouraged to participate in all kinds of national and international student contests. Over the past 10 years, more than 142 championships and much more other awards were won by our students:
★ Earn-while-you-learn

MUST encourages international students to earn while learning. There are plenty of on-campus internship opportunities, and the near-by industrial park and science park are also good sources for internship opportunities. Usually the sophomore and junior students can choose the course subject for practical training for which they will spend 3 months ~ 1 year working in the cooperative company. The strong relationship between MUST and many internationally reputed companies offers our students excellent job opportunities. For example, SYM, GIGABYTE, TITEK, Trend Micro, Sheraton Hotel, Ambassador Hotel, Leofoo Village, and Cathay Financial Holdings are just a few in the long list. Graduated international students may extend their international student status for a maximum period of one year for further practical training in Taiwan. Students can consult the International Student Service Section or his/her own academic department for internship information.

★ Landscape

MUST campus is located in the picturesque town of Xinfeng with the campus surrounded by scenic views. In the day time, one can overlook the Taiwan Strait from the top of the campus. When the nightlights spread over, it should be the most romantic night view in the vicinity. The campus is more than 36 hectares, covered with lush foliage all around the campus.
Nearby Attractions

★ Night Markets
Going to night market is a very popular after-work activity in Taiwan. It is fun and safe even after mid-night. There is a night market within walking distance to MUST right in the Xinfeng Township. Plenty of foods and merchandises can be found at affordable prices. A bigger night market in the Chupei City can be reached by city bus or train in 20 minutes, where more varieties of attractions can be found.

★ Biking along the Xinfeng Coastal Line
Xinfeng has abundant coastal resources with a bike trail connecting all the attractive sceneries, such as the 8.5 hectare mangrove forest, the Hong Mao Harbor, the Xin Yueh Sand Bay, etc. Giant wind mills can be seen along the bike trail, as you enjoy the wind and fresh air on a beautiful holiday afternoon. After a day’s hard work, the beautiful sunset will remove all your dusts. When the dinner time comes, don’t worry! The Hsinchu Harbor is right at the corner. Abundant varieties of seafood are at your own choice!
★ Hsinchu Harbor

Imagine a family-friendly waterfront playground with breathtaking views, fresh seafood, places to fly kites, and a weekend and holiday market with everything from a vast array of mouthwatering snacks to carnival-type games. Look no farther! Hsinchu Harbor is the place for you. The Harbor was renewed and opened in 1991. It covers an area of 91 hectares and has great public facilities and convenient road access. In light of the increasing popularity of recreational fishing and marine tourism, the city government has built a pier for recreational fisherman and a sports park here to attract tourists.

★ Mangrove Ecosystems

Crossing the bridge above the Hong Mao River, one enters the only mangrove forest reserve with Avicennia marina and Candela candle growing together. The mangrove forest has been flourishing here for hundreds of years. It is the only mangrove forest reserve in Taiwan, making it a valuable ecological tourist site. Come enjoy the beautiful scenery and experience incomparable relaxation walking along the trails in the foliage.

★ Mountain View Resort Recreational Farm

The farm is located in Bai Lan Agri-Tourism Area, more than 1000 meter above sea level. Thick clouds often surround the European style cabins, and the temperature is 18-22°C in summer. The scenery is extraordinary and it is a fantastic summer resort.

★ Leofoo Village Theme Park

If you are looking for excitement and wild animals, Leofoo Village Theme Park is a perfect choice. In the theme park are the Arabian Palace, American Western Streets, South Pacific Ocean and Wild Life Kingdom, where tourists can enjoy the whole day. Besides scheduled performances, there are also amusement facilities and food and beverage services. People can experience thrilling, as well as exciting entertainments here. The park is always full of laughter!
Khor, Heng Tien, IE&M, Malaysia

When I first arrived here, I did not know anyone; however, the teachers and the students voluntarily helped me with many things. I truly felt that Taiwanese are very friendly and love to help others, especially the foreigners.

I heard that college life should be colorful, so I joined quite a few school clubs, for example, the Frisbee Club, the Shanlan Community Service Team, and the International Students Association, etc. I gained a lot from attending club activities. Club members are very passionate, and I made a lot of friends there. In MUST, you not only know Taiwanese students, but also have the opportunity to know those from all over the world, for example, Paraguay, Korea, Vietnam, etc. Since everyone lives under the same roof, we learned how to respect each other and live in harmony. And on top of all, I got to taste various foods from the world! Coming to MUST is the best choice I have ever made; I am so glad that I came here!

Dao, Moon, MBA, Vietnam

I am Moon Dao. I am studying at MUST as a MBA student. I feel happy for the days I have spent here so far. I have many heartfelt thanks for the teachers who have often been taking care of us, not only at the class but also at our daily lives.

MUST has a very good learning environment with excellent faculty and staff full of enthusiasm. Taiwanese students are also very friendly and willing to give a hand at any time. And here you don’t need to concern about facilities because they are very complete and modern. What is also important is medical, security, and entertainment. Here you can literally find every sport facility that you would think of, for example, football, baseball, basketball, volleyball, tennis, swimming, and even bowling! This is really an attractive place for us to enjoy learning, living, and growing to be a professional.
Post Graduate

The following tuition rates are based on academic year 2012. The rates are for reference only and are expected to change every year.
